ABOUT THIS SERIES

The Allamahul Bayan Series

عَلَّمَهُ الْبَيَانَ

ʿallamahul-bayān — "He taught him clear expression"

الرَّحْمَٰنُ ﴿١﴾ عَلَّمَ الْقُرْآنَ ﴿٢﴾ خَلَقَ الْإِنسَانَ ﴿٣﴾ عَلَّمَهُ الْبَيَانَ ﴿٤﴾

Ar-Raḥmān. ʿAllamal-Qurʾān. Khalaqal-insān. ʿAllamahul-bayān.

"The Most Merciful. He taught the Qur'an. He created the human being. He taught him clear expression (al-bayān)."

Surah Ar-Raḥmān 55:1–4[1]

Surah Ar-Raḥmān — the chapter of *The Most Merciful* — opens by naming some of Allah's greatest gifts to us. First, **He taught the Qur'an**. Then, **He created the human being**. And then, **He taught him al-bayān**.

What does *al-bayān* mean? It comes from an Arabic root that means *to make something clear*. Al-bayān is the gift of speech and understanding: being able to put what is in our hearts and minds into words, to explain, to listen, and to be understood. Animals make sounds, but only people were taught to speak, read and write in languages. Scholars of tafsīr explain that this gift is what lets us learn, teach and pass on guidance — including the Qur'an itself.

So every time a child says a new word, sounds out a letter, or writes their first line in a new language, they are using a gift that Allah Himself says He taught. That is the heart of this series: **learning languages as a way of thanking Allah for al-bayān.**

Languages and colours: two signs of Allah

وَمِنْ آيَاتِهِ خَلْقُ السَّمَاوَاتِ وَالْأَرْضِ وَاخْتِلَافُ أَلْسِنَتِكُمْ وَأَلْوَانِكُمْ ۚ إِنَّ فِي ذَٰلِكَ لَآيَاتٍ لِّلْعَالِمِينَ ﴿٢٢﴾

Wa min āyātihī khalqus-samāwāti wal-arḍi wakh-tilāfu alsinatikum wa alwānikum. Inna fī dhālika la-āyātil-lil-ʿālimīn.

"And among His signs is the creation of the heavens and the earth, and the variety of your languages and your colours. Surely in that are signs for those who know."

Surah Ar-Rūm 30:22[1]

In Surah Ar-Rūm, Allah tells us that the **many languages** of people and their **many colours** are among His signs. A coloring book that teaches a language brings both of these signs together in a child's hands: they meet a new language, and they fill its letters with colour.

وَجَعَلْنَاكُمْ شُعُوبًا وَقَبَائِلَ لِتَعَارَفُوا

Wa jaʿalnākum shuʿūban wa qabāʾila li-taʿārafū.

"...and We made you into peoples and tribes so that you may get to know one another."

Surah Al-Ḥujurāt 49:13 (part)[1]

Allah made us into many peoples *so that we may get to know one another*. Learning even a few letters of someone's language is a beautiful first step towards knowing them.

How each book in the series works

Every book introduces one language **through English**:

- where the language is spoken, with a map to color;
- every letter of its alphabet, with its name in the language itself *and* in English letters;
- simple English sound guides, so a parent who has never heard the language can still help;
- a word and picture for every letter, to color, trace and say out loud.

Book 54 is Cherokee. More languages from around the world are in the series, in shā' Allāh.

FOR PARENTS AND TEACHERS

How to use this book

Begin with **Bismillah**, and go **little and often**: one letter a day is plenty for a young child. For each letter:

1. **Say it.** Read the letter's name and its sound guide together. Say it three times.
2. **Color it.** Color the big letter any way your child likes.
3. **Trace it.** Trace the dotted letters with a pencil, then try one alone in the empty boxes.
4. **Meet the word.** Say the word, color the picture, and talk about it in English.

Marker tip: every coloring page has a blank back, so colours cannot spoil the next activity. Slip a sheet of scrap paper behind the page you are coloring anyway — it keeps the next page clean.

Reading the English sound guides

- Cherokee vowels: **a** = 'ah', **e** = 'eh', **i** = 'ee', **o** = 'oh', **u** = 'oo', and **v** = 'uh' through the nose (we write it **uhn**).
- Syllables are joined with hyphens: *ah-dah* means say "ah" then "dah".
- **j** in the guide is the Cherokee *ts* sound (many speakers say it like 'j' in "jam"); **gw** is the *qu* sound.
- Cherokee also uses **pitch** (high and low tones) and long and short vowels, which this simple guide does not show — listen to a speaker!

Three ways to see every sound

Each letter page shows the sound three ways: the letter's **Cherokee name** written in Cherokee (native phonetics), the **same name in English letters**, and an **English sound guide**. The box marked *Its row in the syllabary* shows the whole row of Sequoyah's chart that the sign belongs to, with the sign itself in a frame, so children learn the chart a row at a time.

The pronunciation guides are simplified for young learners and follow the Oklahoma (Cherokee Nation) way of speaking.

MEET THE LANGUAGE

Hello, Cherokee! ᏣᎳᎩ

jah-lah-gee (tsalagi) — the Cherokee word for the language

Who speaks it?
About **2,000 people** speak Cherokee as their first language, and thousands of children and adults are learning it in schools and classes.[3]

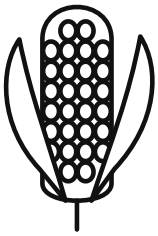

Where?
In the **United States**: mostly in **Oklahoma** and in the mountains of **North Carolina**.

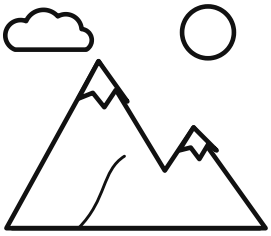

How is it written?
In the **Cherokee syllabary**, from **left to right**. Each sign stands for a whole syllable, like Ꮀ *ga* or Ᏼ *sa*.

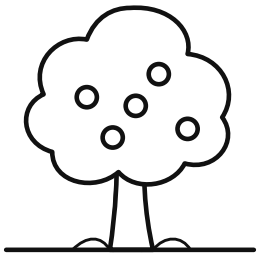

How many signs?
85 signs: 6 vowels and 79 syllables, set out in a chart of rows.

Who made it?
A Cherokee man named **Sequoyah** created the syllabary around **1821**. Within a few years, many Cherokee people could read and write it!

Did you know?
Some signs look like English letters but say other sounds: Ꮃ looks like W but says *la*, and Ꮥ looks like S but says *du*.

Read the chart row by row: each row keeps one consonant and runs through a, e, i, o, u, v — the same order as in this book.

The circle shows the south-east of North America.

COLOR THE MAP

Where is Cherokee spoken?

Color it: the land **green** · the sea **blue**. **Find it:** Cherokee is spoken around **Tahlequah** in Oklahoma and around the town of **Cherokee** in the mountains of North Carolina.

This page is left blank on purpose, so your colours don’t bleed through. ✿

The Vowels Ꭰ Ꭱ Ꭲ Ꭳ Ꭴ Ꭵ

a · e · i · o · u · v

The Cherokee syllabary begins with **six vowels**. Five are like English vowels; the sixth, **Ꭵ (v)**, is a humming “uh” sound said through the nose.

Ꭰ	Ꭱ	Ꭲ	Ꭳ	Ꭴ	Ꭵ
a	*e*	*i*	*o*	*u*	*v*

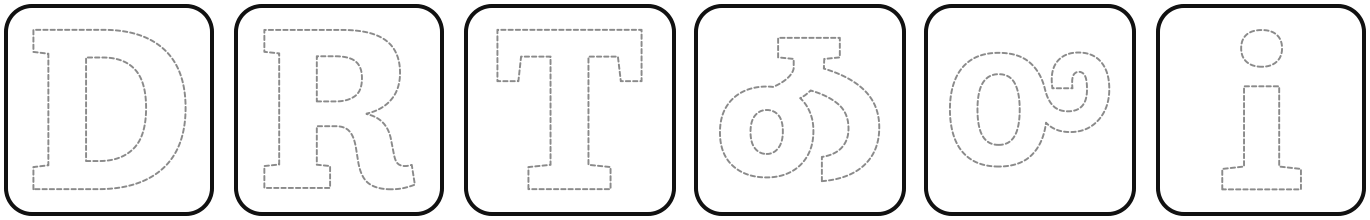

One sign, one syllable
Most signs in the syllabary are a whole syllable: a consonant *and* a vowel together, like **Ꮀ ga** or **Ꮄ sa**. Only six signs are vowels on their own — these six!

They look a bit like English letters…
…but they are not! **Ꭰ** looks like D but says *a*; **Ꭱ** looks like R but says *e*; **Ꭲ** looks like T but says *i*. Say the Cherokee sound, not the English letter.
