ABOUT THIS SERIES

The Allamahul Bayan Series

عَلَّمَهُ الْبَيَانَ

ʿallamahul-bayān — "He taught him clear expression"

الرَّحْمَٰنُ ﴿١﴾ عَلَّمَ الْقُرْآنَ ﴿٢﴾ خَلَقَ الْإِنسَانَ ﴿٣﴾ عَلَّمَهُ الْبَيَانَ ﴿٤﴾

Ar-Raḥmān. ʿAllamal-Qurʾān. Khalaqal-insān. ʿAllamahul-bayān.

"The Most Merciful. He taught the Qur'an. He created the human being. He taught him clear expression (al-bayān)."

Surah Ar-Raḥmān 55:1–4[1]

Surah Ar-Raḥmān — the chapter of *The Most Merciful* — opens by naming some of Allah's greatest gifts to us. First, **He taught the Qur'an**. Then, **He created the human being**. And then, **He taught him al-bayān**.

What does *al-bayān* mean? It comes from an Arabic root that means *to make something clear*. Al-bayān is the gift of speech and understanding: being able to put what is in our hearts and minds into words, to explain, to listen, and to be understood. Animals make sounds, but only people were taught to speak, read and write in languages. Scholars of tafsīr explain that this gift is what lets us learn, teach and pass on guidance — including the Qur'an itself.

So every time a child says a new word, sounds out a letter, or writes their first line in a new language, they are using a gift that Allah Himself says He taught. That is the heart of this series: **learning languages as a way of thanking Allah for al-bayān.**

Languages and colours: two signs of Allah

وَمِنْ آيَاتِهِ خَلْقُ السَّمَاوَاتِ وَالْأَرْضِ وَاخْتِلَافُ أَلْسِنَتِكُمْ وَأَلْوَانِكُمْ ۚ إِنَّ فِي ذَٰلِكَ لَآيَاتٍ لِّلْعَالِمِينَ ﴿٢٢﴾

Wa min āyātihī khalqus-samāwāti wal-arḍi wakh-tilāfu alsinatikum wa alwānikum. Inna fī dhālika la-āyātil-lil-ʿālimīn.

"And among His signs is the creation of the heavens and the earth, and the variety of your languages and your colours. Surely in that are signs for those who know."

Surah Ar-Rūm 30:22[1]

In Surah Ar-Rūm, Allah tells us that the **many languages** of people and their **many colours** are among His signs. A coloring book that teaches a language brings both of these signs together in a child's hands: they meet a new language, and they fill its letters with colour.

وَجَعَلْنَاكُمْ شُعُوبًا وَقَبَائِلَ لِتَعَارَفُوا

Wa jaʿalnākum shuʿūban wa qabāʾila li-taʿārafū.

"...and We made you into peoples and tribes so that you may get to know one another."

Surah Al-Ḥujurāt 49:13 (part)[1]

Allah made us into many peoples *so that we may get to know one another*. Learning even a few letters of someone's language is a beautiful first step towards knowing them.

How each book in the series works

Every book introduces one language **through English**:

- where the language is spoken, with a map to color;
- every letter of its alphabet, with its name in the language itself *and* in English letters;
- simple English sound guides, so a parent who has never heard the language can still help;
- a word and picture for every letter, to color, trace and say out loud.

Book 17 is Dhivehi. More languages from around the world are in the series, in shā' Allāh.

FOR PARENTS AND TEACHERS

How to use this book

Begin with **Bismillah**, and go **little and often**: one letter a day is plenty for a young child. For each letter:

1. **Say it.** Read the letter's name and its sound guide together. Say it three times.
2. **Color it.** Color the big letter any way your child likes.
3. **Trace it.** Trace the dotted letters with a pencil, then try one alone in the empty boxes.
4. **Meet the word.** Say the word, color the picture, and talk about it in English.

Marker tip: every coloring page has a blank back, so colours cannot spoil the next activity. Slip a sheet of scrap paper behind the page you are coloring anyway — it keeps the next page clean.

Reading the English sound guides

- **Dhivehi is read from right to left**, like the Qur'an. The tracing rows on each page also start on the right.
- **Doubled vowels are long:** *aa* as in "father", *ee* as in "see", *oo* as in "moon". Maldivians write long e and o as **ey** and **oa**: *vaarey* (rain), *dhoani* (boat).
- **dh** and **th** are a soft *d* and *t* with the tongue on the back of the teeth — never the English "th" of "the". Plain **d** and **t** are hard: curl the tongue back.
- **lh** is an *l* said with the tongue curled back: *valhu* (well).
- **nd, nb, ndh** in words like *handhu* (moon) and *anbu* (mango): say the *n* very lightly, gliding into the next sound.

Three ways to see every sound

Each letter page shows the sound three ways: the letter's **Dhivehi name** written in Dhivehi (native phonetics), the **same name in English letters**, and an **English sound guide**. In Thaana the vowels are small signs called **fili**. The box marked *the letter with its fili* shows the letter wearing each of the ten fili, with the sound underneath: ◌ *ha*, ◌ *haa*, ◌ *hi*…

The pronunciation guides are simplified for young learners and follow the standard Dhivehi of Malé.

MEET THE LANGUAGE

Hello, Dhivehi! ދިވެހި

dhivehi — the Dhivehi word for the language

Who speaks it?
About **340,000 people** speak Dhivehi, almost all of them in the Maldives.[3]

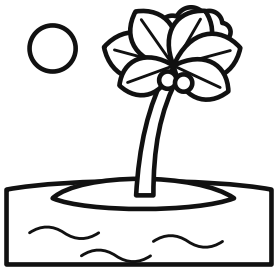

Where?
In the **Maldives**: about **1,200 small coral islands** in the Indian Ocean, in rings called **atolls**. The Maldives is a Muslim country, and island after island has its own mosque.

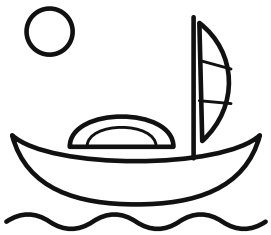

How is it written?
In **Thaana**, from **right to left**. The vowels are little strokes called **fili**, written above or below each letter.

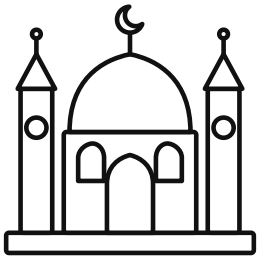

How many letters?
24 basic letters, plus dotted letters for Arabic words: ﻫ ﺯ ﺫ ﺵ ﺱ ﺏ ﻍ ﺡ.

Letters from numbers!
The first nine letters, ހ to ވ, were made from the Arabic numerals 1–9, and the next nine from old Dhivehi numerals.

Letters on the map
The atolls have letter names in alphabet order, from north to south: Haa Alifu, Shaviyani, Noonu, Raa, Baa… all the way down to Seenu.

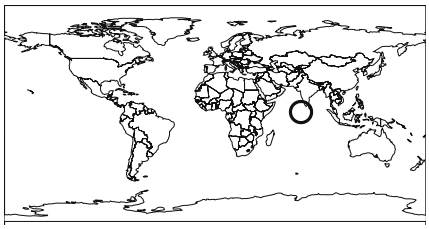

THE WHOLE ALPHABET

ޗ *chaviyani*	ޖ *javiyani*	ޕ *paviyani*	ޔ *yaa*	ޓ *taviyani*	ޒ *zaviyani*

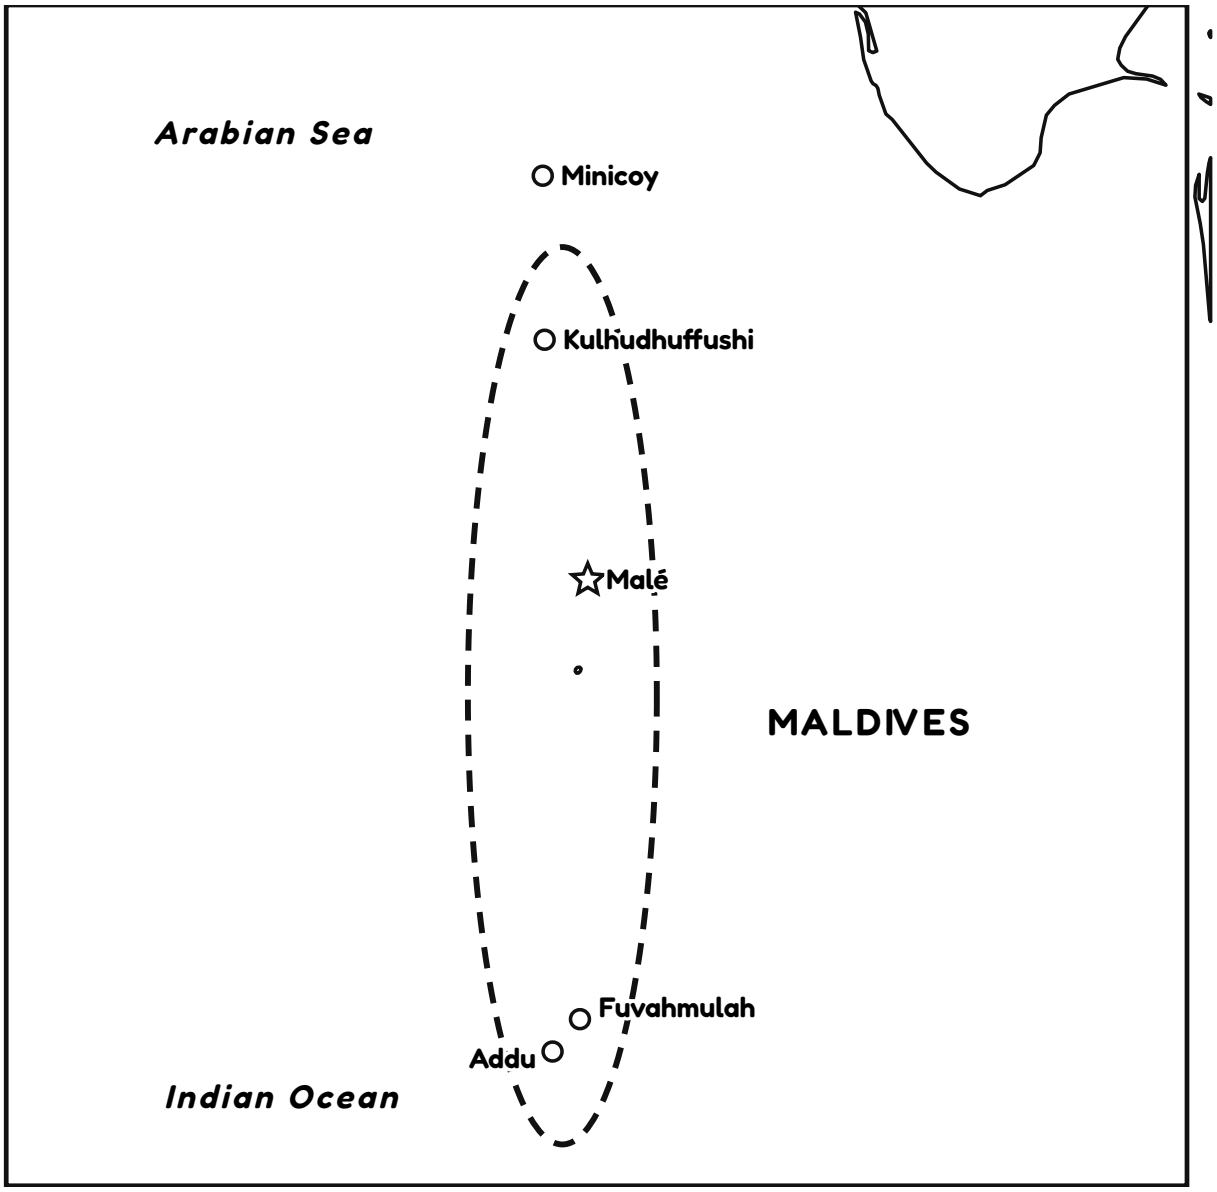

Read the alphabet from **right to left**, row by row — the same order as in this book.

The circle shows the Maldives on the world map.

COLOR THE MAP

Where is Dhivehi spoken?

Color it: the sea **blue** · the land **green**. **Find it:** the Maldives are about 1,200 tiny islands inside the dashed line — most are too small to see on a map! Malé ★ is the capital. Draw little yellow islands along the chain. Dhivehi is also spoken on Minicoy island, to the north.

This page is left blank on purpose, so your colours don’t bleed through. ✿

THE LETTERS

The Thaana Letters ތާނަ ހަބަރު

thaana akuru — “the Thaana letters”

Dhivehi is written **from right to left**, like the Qur’an. Thaana has **24 basic letters**, and every one of them is a consonant. The vowels are small strokes called **fili** (ފިލި).

Every letter wears a fili

In a word, each letter carries a fili **above** or **below** it — or the little circle **sukun**, which means “no vowel”. In this book the big letters are shown bare so you can color them, and each letter page shows the letter with all ten fili.

بِسް = ◌ْ + س + ◌ִ + ب *b + i + s = bis* (egg)

◌ْ	*ސުބުޘް sukun*	no vowel	بْ	*b*	هْ	doubles the next letter

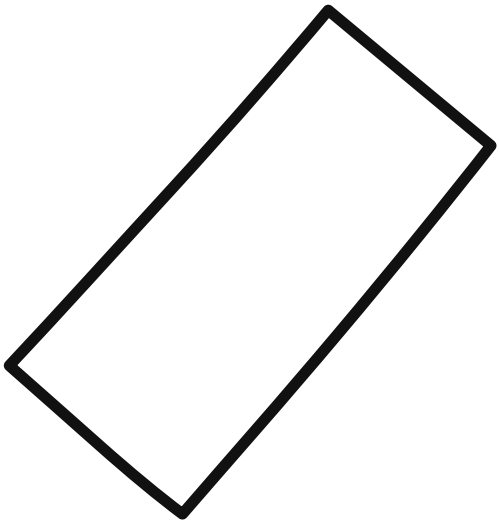

A vowel at the start of a word sits on ހ *alifu*, which has no sound of its own: *ހަނބު anbu* (mango).

[2] **Map** — outlines from **Natural Earth** (public domain), via the *world-atlas* data set.

[3] **Language facts** — speaker numbers from **Ethnologue** (SIL International); the history of the Thaana letters from standard reference works on the script.
